

Darren Lee

Lydd, Kent, TN29 9LF, Phone: 07885281720
Email: infernalwolf148@outlook.com

PROFILE:

Currently studying at Ashford College, a level 2 Extended Certificate in IT, with an attendance of 97%. Have completed and submitted assignments on or before deadlines given. Very confident with MS Office 365, C++, HTML and Python. Can learn other programs relatively fast, including new software, hardware and devices.

Always interested into fixing or building or maintaining a computer. My dream career would be to work in a workplace that maintains, builds and repair computers.

Skills:

- Eager to learn new techniques and skills
- Flexible and adaptable to change
- Working under pressure and maintain high standards
- An aspiration to help and learn further techniques to improve efficiency
- Can work harmoniously with others and equally can be productive when working alone
- Organised and methodical
- Ability to maintain a good relationship with a customer
- Strong skills in installation of programs and use of Office 365

Work Experience:

Current work experience includes working in the College E-Hub (library/Study area). Working with someone else creating new web pages and guides for college students. Since being here, I've learnt new applications indirectly.

Due to COVID-19 and constraints, have not been able to secure official work experience, but have support friends and family set up devices, computers, upgrade system OS's, upgrade programs and have given advice to increase efficiency whilst working on computers.

Education:

College: Ashford college (EKC Group)

Board	Title	Grade	Year
AQA	English Language (resit)	4	November 2021

Currently studying: L2 Extended Certificate in IT

AQA	Art & Design (Photography)	5	2021
AQA	English Language	3	2021
AQA	English Literature Option PM	1	2021
OCR	Computer Science	5	2021

Interests:

Gaming:

A huge gamer, work in teams to learn new complex things on very short time limits.

Fixing/Building/Repairing Computers:

Gain a sense of relief and happiness when I finally build or fix a computer, so I find it fun and yet it just makes me happy.

Learning:

Always just want to learn more and more. Want to learn more techniques to improve delivery, efficiency, and moral.
